WORK EXPERIENCE

Intern: SAP [Feb 2026 - Aug 2026]

Dublin, County Dublin, Ireland | Full-time | Hybrid | 7 months

- Enhanced Composable Service in SAP Analytics Cloud (SAC), developing, testing and delivering new features and product updates with an international Agile engineering team.
- Worked across backend development, cloud and data environments, testing and debugging using Java, SAP HANA, DBeaver, GitHub, Jenkins and CI/CD workflows.
- Developed Hermes as my final internship project and delivered a live demo and presentation to SAP managers and teams.
- Attended SAP D-COM in Galway, gaining exposure to SAP's latest technologies, products and wider ecosystem.

FREELANCING

City: Bucharest | **Country:** Romania

➢ **Front-End Developer for Irisphera** (Romanian Start-up)
- Built interactive mannequin slides (eyes, measurements, colours, etc.), loading screen, and settings menu using Next.js, React and Tailwind CSS
- Irisphera provides a "pocket" personal stylist that helps you choose suitable clothes and accessories
- Website: https://irisphera.com

➢ **WordPress Membership Website**
- Developed from scratch with custom CSS/PHP; included paid video courses & downloadable content
- Website: https://synergeticmind.ro

➢ **Front-End Developer for a Meat Ordering Platform**
- Created UI in Next.js/React, integrated APIs for dynamic product data (prices, descriptions, availability, clients)

➢ **Built an Online Portfolio** using React.js and Bootstrap: https://fireboyd10.github.io/darius-portfolio/

➢ **Music Production:** https://www.youtube.com/@darius_anc
